GREEK
HONEY

Nº1 GREEK HONEY

90 YEARS HISTORY

Since 1928, Pittas family is dedicated to offer the best honey Greek nature is producing. We select **100% premium Greek honey** varieties working exclusively with 2.000 beekeepers from every corner of Greece.

TOP QUALITY

To ensure that our consumers around the world enjoy only the best honey, Attiki-Pittas is certified with HACCP and ISO 22000 & 14001, it has one of the most advanced laboratories for Quality Control and Quality Assurance, and our products are FDA approved.

INTERNATIONAL RECOGNITION

Attiki is the **No1 Greek Honey** and one of the most successful ambassadors of the Greek taste, food culture and tradition around the world, as it is enjoyed by consumers in 5 continents. It has received more than 50 international quality, taste, and packaging awards, which support its excellence.

Honey: Greek nature's superfood!

- One of the most nutritional natural foods, filled with **antioxidants, enzymes, phenolic compounds, amino acids!**
- A unique **natural sweetener!**
- A source of **direct energy!**
- **Good for digestion!**
- For **physical and mental well-being** and euphoria to the human body.

Our bee-loved Attiki Honey

- Produced from **bees that feed on countless wild plants** that are part of the Greek flora, which is the richest in Europe! There are 6,000 different types of natural flowers, herbs and trees, 1,500 of which are only found in Greece!
- An exceptional honey because of Greek flora's capacity to concentrate in a small area a rich variety of plants, due to climatic and soil conditions.
- **Rich in aroma and taste!**
- **Thick in texture!**
- 100% Greek, raw and natural honey.
- It is unheated, unprocessed and unfiltered so that all its attributes are fully preserved.
- A premium, rich and intensively aromatic honey, with **shiny amber** color, carefully collected by Greek artisan beekeepers.
- **Attiki Honey** has a unique, mature, full body taste and strong after-taste.
- It is the only honey which has been studied that much from Universities and is highlighted for its **antioxidant** and **antimicrobial** activity, as well as for its **cytoprotective** properties.

Because everyday pleasures are what really matter

ATTIKI Honey

Attiki honey classic is synonymous with top quality Greek honey. It is a combination of premium Greek honey varieties, including wildflower, herbs, forest and the unique Greek thyme honey.

ATTIKI Dark Brown Forest Honey

It is a unique combination of premium oak and other coniferous trees honey varieties collected from Greek forests.

ATTIKI Thyme Honey from the Greek Islands

It is a very special thyme honey from the beehives of the Aegean islands. Its characteristic aroma and flavor take you to the landscapes of the Greek islands.

ATTIKI Honey with 4% Royal Jelly

Attiki Honey with Royal Jelly combines selected premium Greek honey varieties, including wildflower, herbs, forest and the unique Greek thyme honey, in addition to royal jelly, both highly nutritious foods.
